

## Digital Meeting and Conference Room Booking System

Make Your Workplace Better

# Manage your meetings effectively, smoothly and easily

**MeetingRoomApp** is a modern digital meeting and conference room booking system and platform. Smart technology enables effective management and planning of company meetings, makes company processes simpler and helps to use company space in a better way.

## An Intelligent Solution for Your Office

MeetingRoomApp booking system is highly popular worldwide for its user-friendly interface and modern design, making the booking of a room directly on the touch screen panel at the meeting room door quick and easy. The system can be integrated into Google Apps, Microsoft Exchange or Office 365 systems. It works on Android and iOS devices iOS devices including Web App and features a number of great functions which enable effective management and planning of meetings.

MeetingRoomApp **Cloud-Platform** ensures secure operation and complies with security policy of 98 % companies worldwide. Whether you opt for our cloud platform or your own installation and running of the system, we guarantee trouble-free system launch and easy implementation.

## Book Your Meeting in a Second

You can book a meeting directly on the touch screen panel at the meeting room door, on your mobile on your way to work or from your desktop computer.

The centralized and digitized system will make sure you know which meeting room in your company is available, which room is booked at the moment and which events and activities are planned.

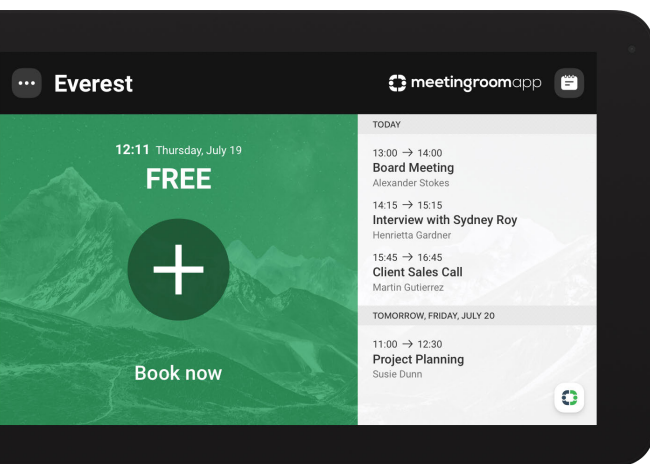

MeetingRoomApp is an ideal solution for small-medium-sized businesses and corporate clients. Our customers include universities, hospitals and other institutions. The smart functions make the system suitable for any business.

# Basic Features & Functions

## IN SYNC WITH OFFICE SYSTEMS

Integration with G Suite (Google Apps), Microsoft Exchange or Office 365.

## AD HOC RESERVATIONS

Book a meeting directly on the touch screenpanel at the meeting room door. Fast and easy booking.

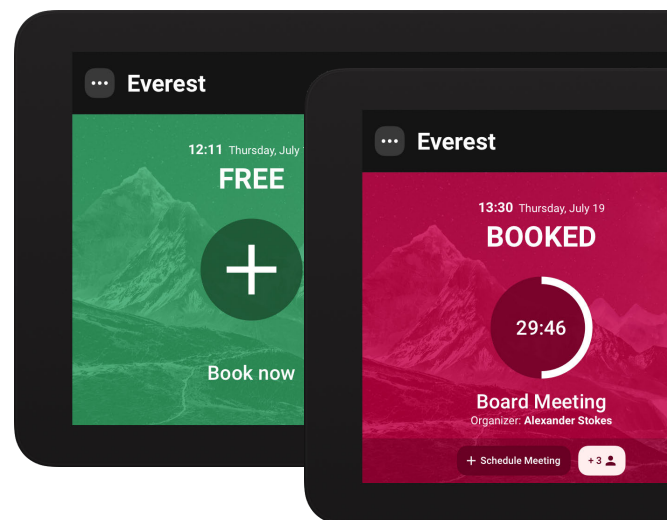

## PLANNING AND EXTENDING A MEETING

Plan your meeting directly on the device screen and book your room in advance. Effectiveness is the key to success.

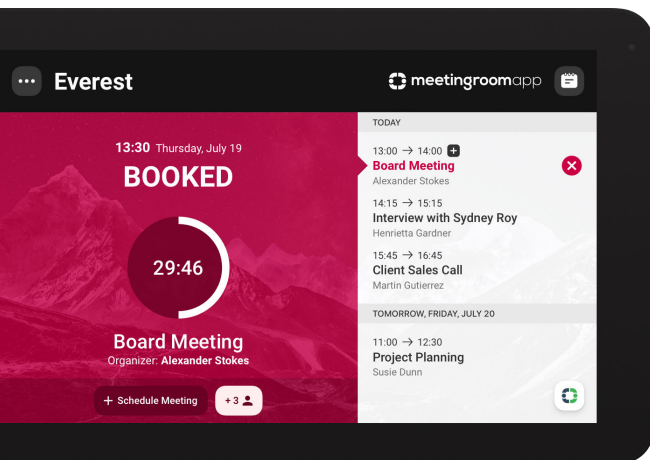

An ongoing meeting can be extended using the plus icon. If you need more time for your meeting, extend your booking in a second.

## SIGNALS RED x GREEN x ORANGE

You can tell whether a meeting room is available or not by colourlight signals on the screen. The red light means there is a meeting at the moment. The green light means you can book the room immediately.

## DISPLAY

The scheduled meeting will be visible on the display of the meeting room device immediately after the reservation is made. On the right on the agenda, you can see the name, date and time of the meeting. Once the meeting starts, you can also see the participants.

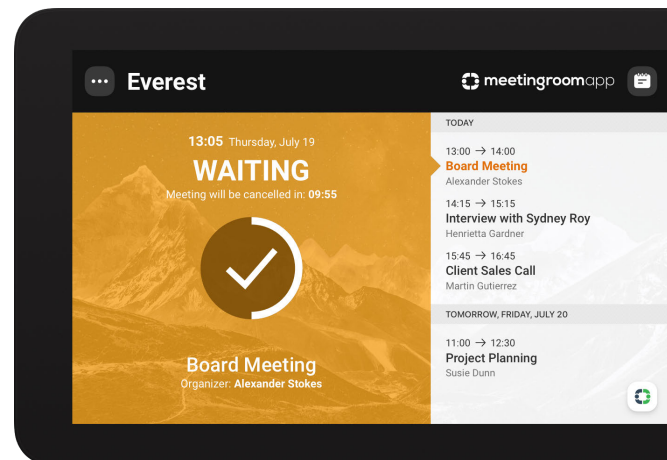

## ENERGY SAVER

MeetingRoomApp saves the display life. App allows easy set up your office working hours.

## More Features

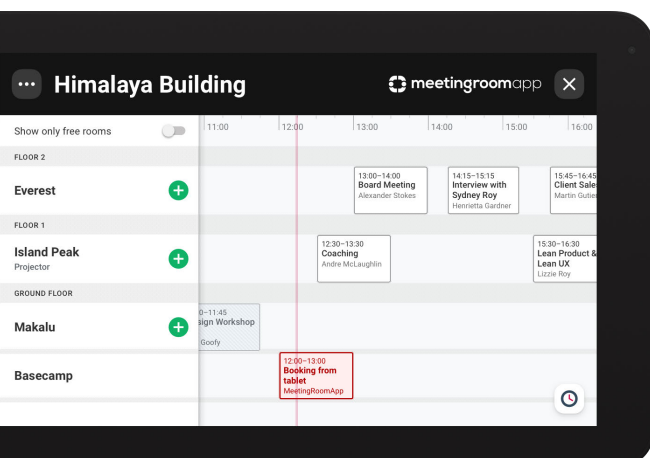

### CONFIRMATION BUTTON

Confirm your attendance at the meeting on the display of the meeting room device by pressing the Confirm button. If the attendance is not confirmed 15 minutes before the start or within 15 minutes after the meeting starts, the booking gets cancelled automatically and the room can be immediately booked.

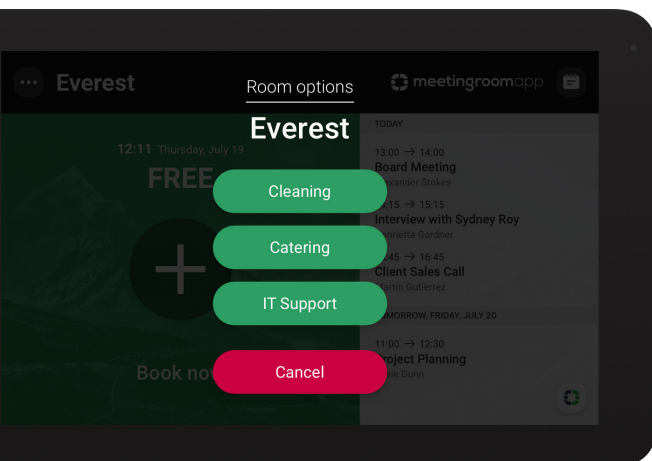

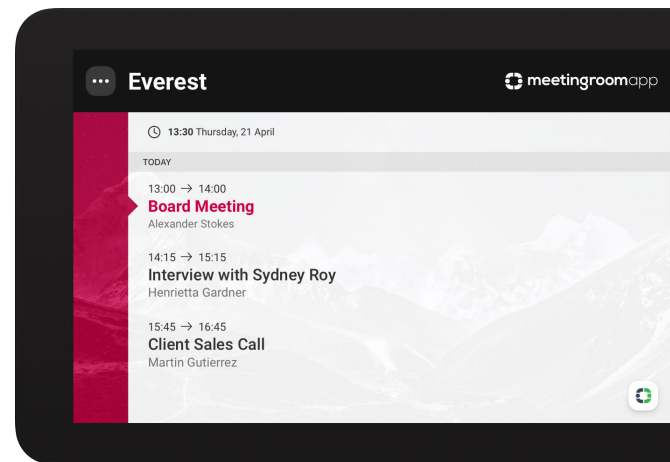

### BOOKING ANOTHER MEETING ROOM

This function allows you to book any room on the display of a meeting room device. Users can see all the meeting rooms in the company directly on the reservation device, and choose and book an available room suitable for their needs quickly and easily, using a 'television panel'

## FULLSCREEN MODE

This function allows you to see company events on the display of the meeting room device. Particularly useful for training rooms, the function turns the device into an information panel displaying basic information about the event currently held in the room.

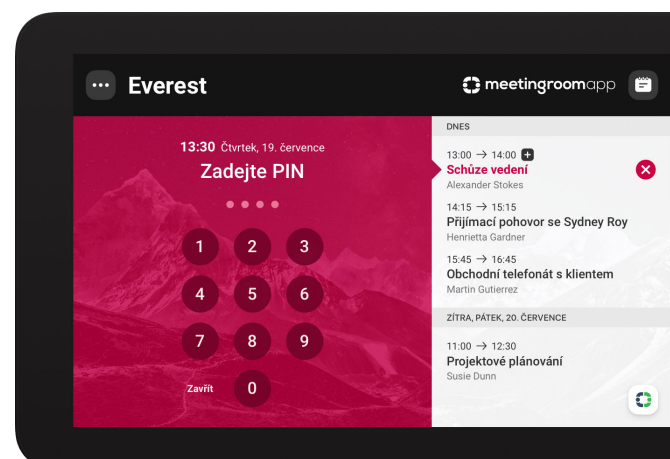

## CLEANING, CATERING OR ISSUES WITH THE EQUIPMENT

Call your office attendant for cleaning and catering in your meeting room or IT support. In two clicks you can order a service which you want.

## PIN PROTECTION AND NOTIFICATIONS

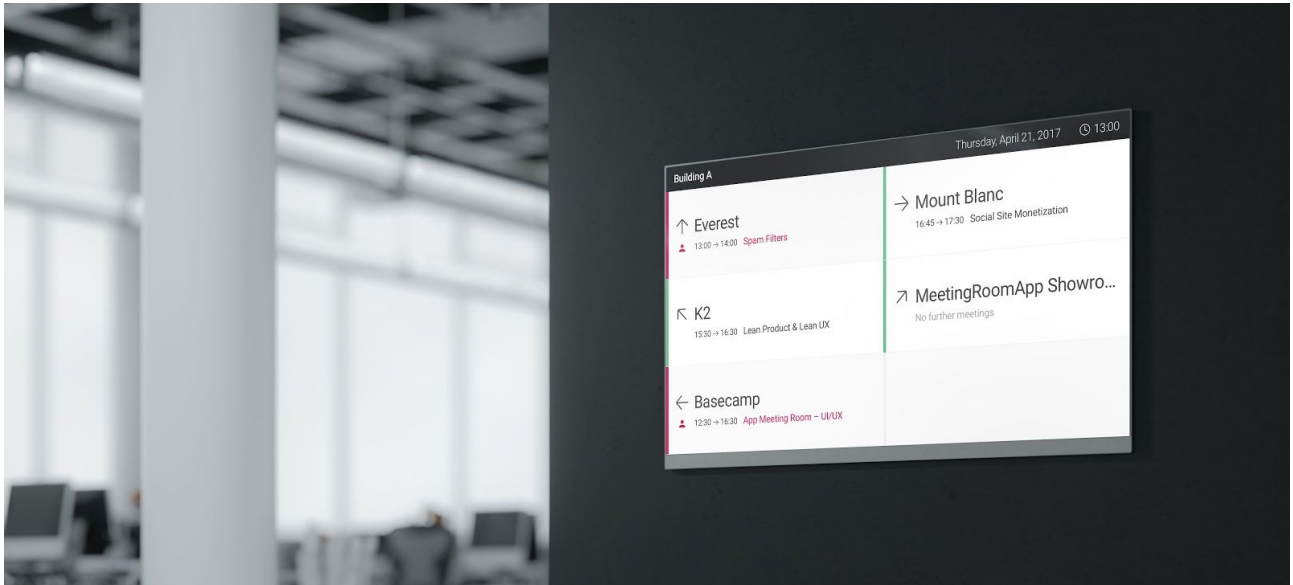

Ad hoc reservations can be secured in a special way. All it takes is to enter your PIN before you make the booking and start your meeting.

Unconfirmed meetings get rejected or cancelled. If the meeting is not confirmed on the panel at the meeting room door, the meeting organizer will be sent an email notification about the cancellation.

## ROOM WAYFINDER & OVERVIEW

Perfect overview of your meeting rooms and quick information for everyone.

## MEETING ROOMS MONITORING

MeetingRoomApp Reporting is an analytical tool which provides information about top meeting room usage and top meeting rooms users. [Read more →](#)

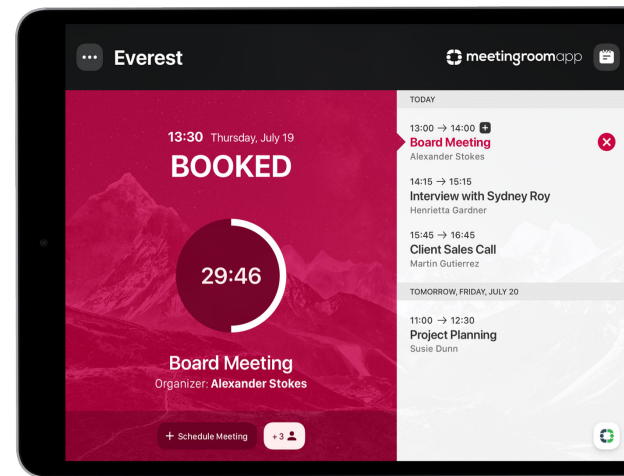

# Hardware – Technology Independent Platform

- Attractive design available in many colours

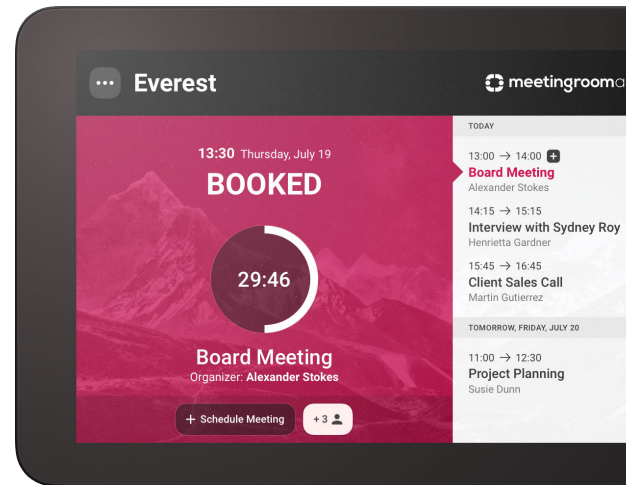

## DIGITAL SIGNAGE DEVICES

### Philips 10BDL4151T

The new Philips 10BDL4151T device features the latest Android 7.1 and a faster processor.

Just like its predecessor, it has color LED lights on its side, clearly indicating the availability of the room. The premium screen offers enhanced picture quality, resulting in an even better MeetingRoomApp design.

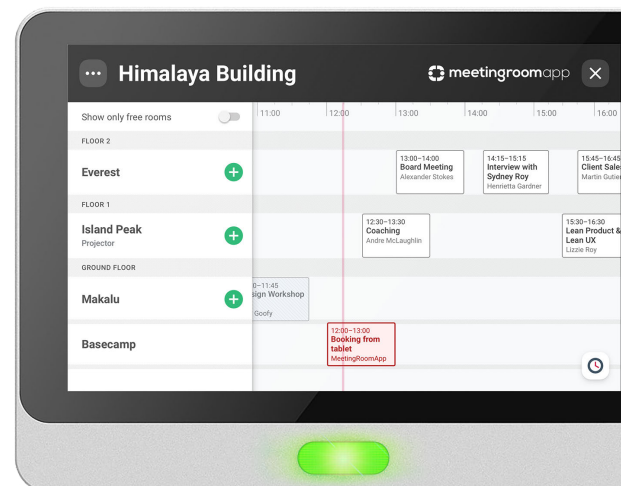

### QBIC TD-1050

AWARDED THE 2017 iF DESIGN AWARDS

Qbic was a winner of this year's iF DESIGN AWARD, a world-renowned design prize. The winning product, TD-1050, won in the discipline Products, in the Office category.

The 10.1" Touch Panel PC is designed for all round purpose informative display which can be mounted on any surface, allowing different interactive integrations and with the modern design, it is self complementing whilst presenting designated information, even on translucent glass which ensure it stays on with clean installations.

### Other Brands

MeetingRoomApp can be used on any other professional digital signage displays and touch panels. We support any other major brands – Samsung, LG, NEC, Philips and Panasonic.
